Quality Policy

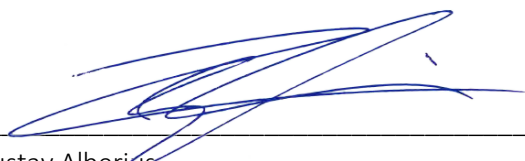

Our ambitions for quality work is to offer compact and reliable electric systems according to established specifications.

This means in practice that:

- Our customers should always feel that they receive high quality service and good treatment.
- We will endeavor to make use of suppliers that can provide recognized good quality.
- Our customers should at all times feel that we can provide knowledge and skills for their needs.
- We will deliver on time, at agreed prices and terms.
- We must comply with the laws, rules and regulations applicable to our products.

We will continuously improve our operations through our routine descriptions and goals.

This policy is reassessed annually after a quality survey is done.

Gustav Alberius
CEO
